13) SNS
14) Cloud Formation
15) CloudFront
16) Cloud Watch

...ate app can repeat anything you say in up to **NINETY LANGUAGES** from German and Japanese to Czech and Zulu

Tip

Don't wait till the end of the presentation to give the bottom line.

Reveal your product or idea (in this case a translation app) up front.

**Tip**

Tell the audience about the problem through a **story**, ideally a person.

# Meet Alberto.

He recently moved from Spain to a small town in Northern Ireland.
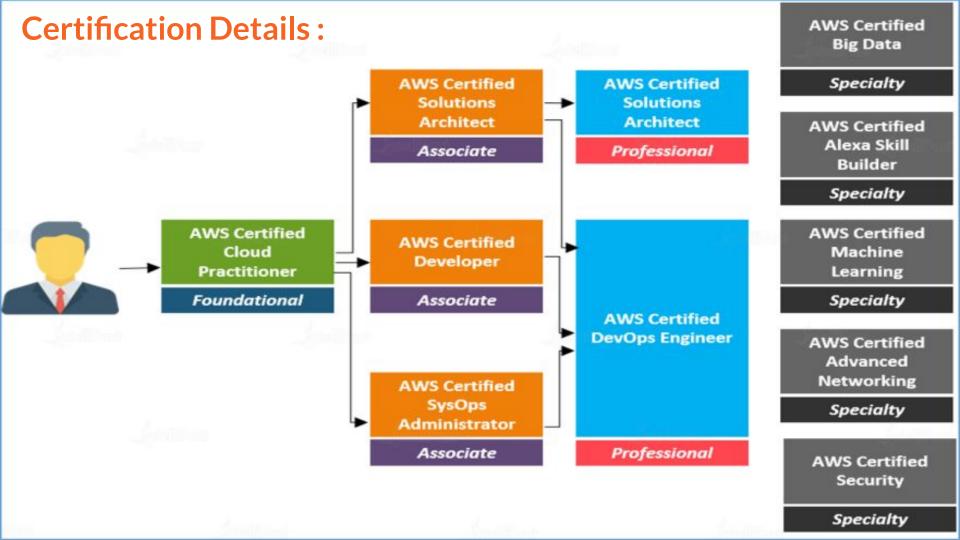

He loved soccer, but feared he had no way to talk to a coach or teammates.

# Meet Marcos.

He recently opened a camera shop near the Louvre in Paris.

Visitors to his store, mostly tourists, speak many different languages making anything beyond a simple transaction a challenge.

*Story for illustration purposes only*

**Tip**

If one example isn't sufficient to help people understand the breadth of your idea, pick a couple of examples.

# Certification Details :

# Thank You!
